Active Ingredients**

**Controls Odors,
Improves IAQ**

**Maintain
Free Flowing Drains**

**Adheres to Pan-
Will Not Float**

**Prevents Drain
Pan Corrosion**

Powerful, Economical, Preventative Maintenance for Condensate Drain Pans

Never Clean A Pan Again!

PurCool™ PanStrips keep A/C and Refrigeration condensate drain pans clean and free flowing. **PurCool Pan Strips** will adhere to wet pan surfaces and will not move, they fully dissolve with no sock or casing left behind - letting you know when new treatment is needed. **PurCool Pan Strips** are weighted and will not float or move once placed in the condensate pan. Place Pan Strip anywhere in the drain pan where the **PurCool Pan Strips** will contact condensate water and enjoy up to 6 months of powerful, economical protection.

Fouled Condensate Pan
