MERV 8 REUSABLE PLEATED FILTERS

HOW TO...

Order the accurate size to fit your frame.

Measure the length and width of your frame edge to edge so that the filter fits inside the frame. Filters are cut approximately

+/- 1/8" to actual size.

Measure carefully… these are custom cut filters and are NON-RETURNABLE.

HOW TO...

Clean your MERV 8 reusable pleated filter.

Simply remove the filter holding retainer, then release the filter from the frame. Wash the filter with a mild household detergent and water. Reinstall the filter and the filter retainer.

33 Standard Sizes

10x10x1	10x20x1	10x24x1	10x30x1	12x12x1	12x20x1
