GROWER ALERT!

"Cleaner Air is Our Business"

GOT WPM?

White Powdery Mildew

An effective indoor air purifier that drastically reduces over 90% of Airborne Mold and Mildew, plus removes microscopic particulates that filters alone can't capture.

~~OZONE~~

- ★ Orion's negative and positive IONS electrically charge the smallest airborne particulates causing them to bind together in groups large enough for capture in filtration.
- ★ Enhances the efficiency of any air filter.
- ★ Adds an additional stage of VOC breakdown, expanding the field of VOC reduction.
- ★ WPM (White Powdery Mildew) thrives in conditions with high humidity, little or no airflow and poor ventilation.
- ★ Ideal for indoor growing rooms that have little or no airflow and ventilation.

MADE IN USA

Orion

Ultravation's Ion Generator for IAQ

External Mount Electrode Position

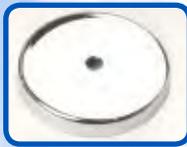

Internal Mount Electrode Position

Positive and negative ions are emitted from the two adjustable electrodes. A magnet is provided to attach the unit internally.

- ★ Works with any HVAC system, mounts internally and externally.
- ★ 3 times more powerful than typical designs.
- ★ Compact to fit in strategic locations.
- ★ Magnetic mount included.
- ★ Connects to any 24 VAC transformer or any existing Ultravation 24 volt IAQ product.
- ★ 6 ft. quick release power cord included.
- ★ Wall plug-in adapter available.
- ★ 5 year warranty.
- ★ Stainless Steel Cabinet
